Bees Feed Me

Written by Harriet Rosenbloom

www.readinga-z.com

Bees are little,
but they do a big job.
Bees feed you and me.

Without bees, we would
not have apples.

Without bees, we would
not have carrots.

Without bees, we would
not have lemons.

Without bees, we would
not have cucumbers.

Without bees, we would not have blueberries.

Without bees, we would
not have pumpkins.

Bees help bring us some
of our favorite foods.
Thank you, bees!
