Fired Up!

House fires happen every day.
House fires can hurt people.
But you can help!
Learn these tips to keep you
and your family safe.

Smoke Alarms

Your house should have smoke alarms.

They make a really loud sound when there's smoke.

Get out of the house when the alarm sounds.

Escape Plan

Practice an escape plan with your family's help.

Pick a place outside to meet them.

Don't Hide, Go Outside

When there's a fire, never hide under your bed.

Never hide in a closet.

Go outside where it is safe.

Stay Low

Crawl on the floor if there is a lot of smoke.

It is easier to breathe near the floor.

Touch and Go

Touch the door before you go.
(Don't touch the knob!)

If the door feels hot, don't
open it.

There might be a fire on the
other side.

Find another way out.

1. Stop!

2. Drop!

3. Roll!

Roll! Roll! Roll!

If your clothes start to burn,
don't panic!

Drop to the floor.

Roll around until the fire is out.

Get Out and Stay Out

Never go back into a burning house.

Stay out once you are out.

Always call 9-1-1 if you smell smoke or if there is a fire.

The fire department will help.

Fire Safe

Always keep these tips in mind.
You will be safe if you do.
