Chicks are baby chickens.
Chicks hatch from eggs.

You can hatch chicks at school.

First, wash your hands.
This helps you and the eggs
stay clean.

Next, mark the eggs
with an X and an O.
This helps you tell one side
from the other.

Then, put the eggs
inside an incubator.
This helps the eggs stay warm.

Next, put water
inside the incubator.
This keeps the eggs
from getting dry.

Each day, turn the eggs
three times.

This helps the growing chicks
move around.

In about three weeks, check the eggs for cracks. Finally, the chicks will hatch over the next day or two!

Wait one more day
before you touch the chicks.
Then, feed the chicks.

Last, find them a good home.
